5th November 2020

Session 6 Programme

Dear Parent/Carer,

At Plympton Academy we are constantly working hard to ensure the best outcomes for our Year 11 students. We believe that every student deserves to open their results in the summer and feel proud of their achievements. This we know will lead them on to bright and successful futures. We recognise that to do this we need to work collaboratively with parents and carers and maximise the time that students spend with their teachers.

In our on-going endeavour to support our Year 11 students, from the week beginning the 9th November (Week A) we are commencing our 'Session 6 programme' the first phase of our enhanced academic support provision. These are obligatory periods for all Year 11 students to provide them with further learning, to develop their examination technique, revisiting content from the previous three years and the lockdown period and building their confidence and competence in the core subjects.

The session will take place on the days indicated on the timetable below from 3:00 pm until 4:00 pm and are staffed by specialist teachers from our English, Mathematics and Science teams. The overview of the Session 6 periods is shown in the table below. All students are expected to attend all these sessions as they have proven to have a significant positive impact on outcomes which in turn will provide students with greater opportunities when choosing their Post-16 pathways. Our Session 6 intervention will continue right up to the exam season and will take place in the students normal teaching rooms of each of the core subjects named above.

Students will be provided with refreshments after the sessions and initially on the three days students are attending the sessions will be exempt from completing their homework until Christmas on these days.
